

VISUAL HISTORY OF THE HOLOCAUST

Rethinking Curation
in the Digital Age

Mini-Workshop Archival Research

Vienna, Austria

June 12 – 13, 2019

Hosted by

Ludwig Boltzmann Institute
for Digital History, Vienna

The preparation of archival research in Western archives is the objective of this mini-workshop.

The curation and advanced digitization of photographs, oral histories, and text documents plays an important role in the VHH project. JLU is task leader of the related tasks. In this 1.5 day mini-workshop focused on text documents, JLU's researcher meets with research and digitization experts from LBI to discuss standards and workflows. This meeting is also used to discuss the planned features of the Visual History of the Holocaust Media Management and Search Infrastructure (VHH-MMSI).

Concept

Ingo Zechner (Ludwig Boltzmann Institute for Digital History)
